Chandler Blvd., Chandler, AZ 85224-6199, and its subsidiary, Microchip Technology (Barbados) II Incorporated (collectively, "Microchip") for Microchip's MPLAB Harmony Integrated Software Framework ("Software") and accompanying documentation ("Documentation"). The Software and Documentation are licensed under this Agreement and not sold. U.S. copyright laws and international copyright treaties, and other intellectual property laws and treaties protect the Software and Documentation. Microchip reserves all rights not expressly granted to Licensee in this Agreement.

#### 1. License and Sublicense Grant.

**(a) Definitions.** As used this Agreement, the following terms shall have the meanings defined below:

- (i) "Licensee Products" means Licensee products that use or incorporate Microchip Products.
- (ii) "Microchip Product" means Microchip 16-bit and 32-bit microcontrollers, digital signal controllers or other Microchip semiconductor products with PIC16 and PIC18 prefix and specifically excepting the CX870 and CY920, which are not covered under this Agreement, that use or implement the Software.
- (iii) "Object Code" means the Software computer programming code provided by Microchip that is in binary form (including related documentation, if any) and error corrections, improvements and updates to such code provided by Microchip in its sole discretion, if any.
- (iv) "Source Code" means the Software computer programming code provided by Microchip that may be printed out or displayed in human readable form (including related programmer comments and documentation, if any), and error corrections, improvements, updates, modifications and derivatives of such code developed by Microchip, Licensee or Third Party.
- (v) "Third Party" means Licensee's agents, representatives, consultants, clients, customers, or contract manufacturers.
- (vi) "Third Party Products" means Third Party products that use or incorporate Microchip Products.

**(b) Software License Grant.** Subject to the terms of this Agreement, Microchip grants strictly to Licensee a personal, worldwide, non-exclusive, non-transferable limited license to use, modify (except as limited by Section 1(f) below), copy and distribute the Software only when the Software is embedded on a Microchip Product that is integrated into Licensee Product or Third Party Product pursuant to Section 2(d) below.

Any portion of the Software (including derivatives or modifications thereof) may not be:

- (i) embedded on a non-Microchip microcontroller or digital signal controller;
- (ii) distributed (in Source Code or Object Code), except as described in Section 2(d) below.

**(c) Documentation License Grant.** Subject to all of the terms and conditions of this Agreement, Microchip grants strictly to Licensee a perpetual, worldwide, non-exclusive license to use the Documentation in support of Licensee's use of the Software.

**(d) Sublicense Grants.** Subject to terms of this Agreement, Licensee may grant a limited sublicense to a Third Party to use the Software as described below only if such Third Party expressly agrees to be bound by terms of confidentiality and limited use that are no broader in scope and duration than the confidentiality and limited use terms of this Agreement:

- (i) Third Party may modify Source Code for Licensee, except as limited by Section 1(f) below.
- (ii) Third Party may program Software into Microchip Products for Licensee.
- (iii) Third Party may use Software to develop and/or manufacture Licensee Product.
- (iv) Third Party may use Software to develop and/or manufacture Third Party Products where either: (x) the sublicensed Software

contains Source Code modified or otherwise optimized by Licensee for Third Party use; or (y) the sublicensed Software is programmed into Microchip Products by Licensee on behalf of such Third Party.

(v) Third Party may use the Documentation in support of Third Party's authorized use of the Software in conformance with this Section 2(d).

**(e) Audit.** Authorized representatives of Microchip shall have the right to reasonably inspect Licensee's premises and to audit Licensee's records and inventory of Licensee Products, whether located on Licensee's premises or elsewhere at any time, announced or unannounced, and in its sole and absolute discretion, in order to ensure Licensee's adherence to the terms of this Agreement.

**(f) License and Sublicense Limitation.** This Section 1 does not grant Licensee or any Third Party the right to modify any dotstack™ Bluetooth® stack, profile, or iAP protocol included in the Software.

**2. Third Party Requirements.** Licensee acknowledges that it is Licensee's responsibility to comply with any third party license terms or requirements applicable to the use of such third party software, specifications, systems, or tools, including but not limited to SEGGER Microcontroller GmbH & Co. KG's rights in the emWin software and certain libraries included herein. Microchip is not responsible and will not be held responsible in any manner for Licensee's failure to comply with such applicable terms or requirements.

**3. Open Source Components.** Notwithstanding the license grants contained herein, Licensee acknowledges that certain components of the Software may be covered by so-called "open source" software licenses ("Open Source Components"). Open Source Components means any software licenses approved as open source licenses by the Open Source Initiative or any substantially similar licenses, including any license that, as a condition of distribution, requires Microchip to provide Licensee with certain notices and/or information related to such Open Source Components, or requires that the distributor make the software available in source code format. Microchip will use commercially reasonable efforts to identify such Open Source Components in a text file or "About Box" or in a file or files referenced thereby (and will include any associated license agreement, notices, and other related information therein), or the Open Source Components will contain or be accompanied by its own license agreement. To the extent required by the licenses covering Open Source Components, the terms of such licenses will apply in lieu of the terms of this Agreement, and Microchip hereby represents and warrants that the licenses granted to such Open Source Components will be no less broad than the license granted in Section 1(b). To the extent the terms of the licenses applicable to Open Source Components prohibit any of the restrictions in this Agreement with respect to such Open Source Components, such restrictions will not apply to such Open Source Components.

#### 4. Licensee's Obligations.

(a) Licensee will ensure Third Party compliance with the terms of this Agreement.

(b) Licensee will not: (i) engage in unauthorized use, modification, disclosure or distribution of Software or Documentation, or its derivatives; (ii) use all or any portion of the Software, Documentation, or its derivatives except in conjunction with Microchip Products; or (iii) reverse engineer (by disassembly, decompilation or otherwise) Software or any portion thereof; or (iv) copy or reproduce all or any portion of Software, except as specifically allowed by this Agreement or expressly permitted by applicable law notwithstanding the foregoing limitations.

(c) Licensee must include Microchip's copyright, trademark and other proprietary notices in all copies of the Software, Documentation, and its derivatives. Licensee may not remove or alter any Microchip copyright or other proprietary rights notice posted in any portion of the Software or Documentation.

(d) Licensee will defend, indemnify and hold Microchip and its subsidiaries harmless from and against any and all claims, costs, damages, expenses (including reasonable attorney's fees), liabilities, and losses, including without limitation product liability claims, directly or indirectly arising from or related to: (i) the use, modification, disclosure or distribution of the Software, Documentation or any intellectual property rights related thereto; (ii) the use, sale, and distribution of Licensee Products or Third Party Products, and (iii) breach of this Agreement. THE FOREGOING STATES THE SOLE AND EXCLUSIVE LIABILITY OF THE PARTIES FOR INTELLECTUAL PROPERTY RIGHTS INFRINGEMENT.

Except as expressly and unambiguously allowed herein, Licensee will hold in confidence and not use or disclose any Proprietary Information and shall similarly bind its employees and Third Party(ies) in writing. Proprietary Information shall not include information that: (i) is in or enters the public domain without breach of this Agreement and through no fault of the receiving party; (ii) the receiving party was legally in possession of prior to receiving it; (iii) the receiving party can demonstrate was developed by it independently and without use of or reference to the disclosing party's Proprietary Information; or (iv) the receiving party receives from a third party

without restriction on disclosure. If Licensee is required to disclose Proprietary Information by law, court order, or government agency, such disclosure shall not be deemed a breach of this Agreement provided that Licensee gives Microchip prompt notice of such requirement in order to allow Microchip to object or limit such disclosure, Licensee cooperates with Microchip to protect Proprietary Information, and Licensee complies with any protective order in place and discloses only the information required by process of law.

(b) Licensee agrees that the provisions of this Agreement regarding unauthorized use and nondisclosure of the Software, Documentation and related Proprietary Rights are necessary to protect the legitimate business interests of Microchip and its licensors and that monetary damages alone cannot adequately compensate Microchip or its licensors if such provisions are violated. Licensee, therefore, agrees that if Microchip alleges that Licensee or Third Party has breached or violated such provision then Microchip will have the right to petition for injunctive relief, without the requirement for the posting of a bond, in addition to all other remedies at law or in equity.

## **6. Ownership of Proprietary Rights.**

(a) Microchip and its licensors retain all right, title and interest in and to the Software and Documentation ("Proprietary Rights") including, but not limited to: (i) patent, copyright, trade secret and other intellectual property rights in the Software, Documentation, and underlying technology; (ii) the Software as implemented in any device or system, all hardware and software implementations of the Software technology (expressly excluding Licensee and Third Party code developed and used in conformance with this Agreement solely to interface with the Software and Licensee Products and/or Third Party Products); and (iii) all modifications and derivative works thereof (by whomever produced). Further, modifications and derivative works shall be considered works made for hire with ownership vesting in Microchip on creation. To the extent such modifications and derivatives do not qualify as a "work for hire," Licensee hereby irrevocably transfers, assigns and conveys the exclusive copyright thereof to Microchip, free and clear of any and all liens, claims or other encumbrances, to the fullest extent permitted by law. Licensee and Third Party use of such modifications and derivatives is limited to the license rights described in Section 1 above.

(b) Licensee shall have no right to sell, assign or otherwise transfer all or any portion of the Software, Documentation or any related intellectual property rights except as expressly set forth in this Agreement.

**7. Termination of Agreement.** Without prejudice to any other rights, this Agreement terminates immediately, without notice by Microchip, upon a failure by Licensee or Third Party to comply with any provision of this Agreement. Further, Microchip may also terminate this Agreement upon reasonable belief that Licensee or Third Party have failed to comply with this Agreement. Upon termination, Licensee and Third Party will immediately stop using the Software, Documentation, and derivatives thereof, and immediately destroy all such copies, remove Software from any of Licensee's tangible media and from systems on which the Software exists, and stop using, disclosing, copying, or reproducing Software (even as may be permitted by this Agreement). Termination of this Agreement will not affect the right of any end user or consumer to use Licensee Products or Third Party Products provided that such products were purchased prior to the termination of this Agreement.

**8. Dangerous Applications.** The Software is not fault-tolerant and is not designed, manufactured, or intended for use in hazardous environments requiring failsafe performance ("Dangerous Applications"). Dangerous Applications include the operation of nuclear facilities, aircraft navigation, aircraft communication systems, air traffic control, direct life support machines, weapons systems, or any environment or system in which the failure of the Software could lead directly or indirectly to death, personal injury, or severe physical or environmental damage. Microchip specifically disclaims (a) any express or implied warranty of fitness for use of the Software in Dangerous Applications; and (b) any and all liability for loss, damages and claims resulting from the use of the Software in Dangerous Applications.

MICROCHIP AND ITS LICENSORS HAVE NO OBLIGATION TO CORRECT ANY DEFECTS IN THE SOFTWARE. LICENSEE AND THIRD PARTY ASSUME THE ENTIRE RISK ARISING OUT OF USE OR PERFORMANCE OF THE SOFTWARE AND DOCUMENTATION PROVIDED UNDER THIS AGREEMENT.

**10. Limited Liability.** IN NO EVENT SHALL MICROCHIP OR ITS LICENSORS BE LIABLE OR OBLIGATED UNDER CONTRACT, NEGLIGENCE, STRICT LIABILITY, CONTRIBUTION, BREACH OF WARRANTY, OR OTHER LEGAL OR EQUITABLE THEORY FOR ANY DIRECT OR INDIRECT DAMAGES OR EXPENSES INCLUDING BUT NOT LIMITED TO INCIDENTAL, SPECIAL, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES, LOST PROFITS OR LOST DATA, COST OF PROCUREMENT OF SUBSTITUTE GOODS, TECHNOLOGY, SERVICES, OR ANY CLAIMS BY THIRD PARTIES (INCLUDING

BUT NOT LIMITED TO ANY DEFENSE THEREOF), OR OTHER SIMILAR COSTS. The aggregate and cumulative liability of Microchip and its licensors for damages hereunder will in no event exceed \$1000 or the amount Licensee paid Microchip for the Software and Documentation, whichever is greater.
